

ASTEK GRUND SILICONIC

DESCRIPTION

Special silicone based primer. It is also solvent free, ecological and water resistant.

APPLICATION AREA

It is applied before painting concrete, plasters, new, very absorptive or previous painted surfaces. Can be also applied on old exterior and dusty surfaces.

PROPERTIES

It produces a perfect adhesion between surface and paint, decreasing the paint consumption

TECHNICAL CHARACTERISTICS

Colour: white

Density: $1,2 \pm 0,05$ g/ml

PH: 8-10

PREPARING SURFACES AND APPLICATION

Surfaces must be clean, dry and must have own resistance. Primer should be applied in one coat with brush, role or spray equipment. After six hours ASTEK paint should be applied. Minimum temperature application for surface paint and air is 5°C. After use clean tools with water immediately.

DILUTION

Can be diluted with water in proportion of 1:3

DRYING TIME

Drying time : 6 hours

SPECIFIC COMSUMPTION

About 20 ml-40 ml/mp of concentrated primer, depending on the structure and the absorption capacity of the surface.

STORAGE

Shelf life of 3 years when stored unopened in frost free , dry and cool conditions.

PACKING

Boxes : 3 l / 3 kg ; 10 l/10 kg
